## Projects

---

### East NFT

11/2021 – 10/2023

The project aims to develop a highly-curated platform that enables users to create, collect, and trade unique NFTs. The platform will feature a Drops section where users can purchase NFTs directly from top artists and brands. Additionally, it will include a Marketplace where users can bid on and auction off rare digital collectibles. Artists and brands will have the ability to mint their own creations into NFTs through dedicated tools. Users will also have access to a digital gallery, My NFTs, to showcase their NFT collections. A fully functional and user-friendly platform for seamless creation, collection, and trading of NFT.

### STUMP UP

09/2022 – 12/2022

The project involves building a highly-curated platform for creating, collecting, and trading unique NFTs. The platform will feature Drops, allowing users to purchase NFTs directly from top Creators. It will also include a Marketplace for bidding and auctioning rare digital collectibles, as well as a Fundraiser for minting NFTs and crowdfunding campaigns. Additionally, users will have access to "My NFTs," a digital gallery to showcase their NFT collections. The focus is on providing a secure, user-friendly experience while staying up-to-date with industry trends. A fully functional and user-friendly platform for creating, collecting, and trading unique.

### FanVerse

05/2022 – 09/2022

This project aims to develop a highly-curated NFT platform where users can create, collect, and trade unique digital assets. It includes features like Drops for purchasing NFTs from top Creators, a Marketplace for bidding on rare collectibles, Creator tools for minting NFTs, and a digital gallery to showcase collections. Additionally, users can engage in chat conversations with fellow followers. A fully functional and user-friendly platform for creating, collecting, and trading unique NFTs.
